Aims and objectives of Transition Black Isle

The Aims of TBI shall be:

- a) To raise awareness of the issues associated with the twin challenges of Peak Oil and Climate Change and the consequent need to develop a low carbon, sustainable future through ethical, social, cultural, economic, environmental and community action.
- b) To promote, encourage and support the development of education and research concerning areas affected by resource depletion.
- c) To provide the membership, other groups, and individuals with the encouragement and support necessary to make the transition to a low carbon, sustainable, ethical future.

The objectives for which TBI is established are:

- a) To create and help implement an Energy Descent Action Plan (EDAP) for the Black Isle and the surrounding area
- b) To support and encourage local action on Peak Oil and Climate Change
- c) To support and work with other Transition Towns and similar community-led initiative
- d) To engage with other organisations, including statutory, voluntary, and business, where appropriate in pursuit of its aims and objectives.

I agree with the aims and objectives of TBI. I am happy/not happy for the above information to be shared amongst other members. (No membership information will be available directly through the internet.)
