International Otter’s Survival Fund, 29 July, The GALE Centre

Come and visit some representatives from the International Otter’s Survival Fund in the GALE centre on the 29th of July to learn more about otters, conservation and the work of the organisation!

The International Otter Survival Fund is dedicated to the conservation and protection of the world’s 13 species of otter. Inspired by viewing otters in the wild, IOSF’s founders set out a target to help the world’s otters and 25 years later the charity is still passionate about helping one of the world’s most charismatic creatures.

This project is called ‘Dig for Victory over Climate Change’ and helps provide a part of the solution to our CLIMATE EMERGENCY. By taking small steps such as reducing food miles and plastic packaging, holding community seed swaps, small scale local growing, composting and cropping to improve soil condition we are reducing the dependency on pesticides and chemicals and empowering local people to help reduce our impact on the environment.

For more info on how you can get involved please contact our outdoor learning team: outdoorlearning@galeteam.co.uk

Both the Russian Arctic Convoy Museum and GALE have a variety of volunteering opportunities available! For more details of how you can get involved please contact Tania@galeteam.co.uk
